Re: Suitability petition approved

Dear Mr. Agrawal:

We approve your suitability petition (FDA 2024-P-3292) dated July 10, 2024. You requested permission to submit an abbreviated new animal drug application (ANADA) for a generic maropitant citrate 40 mg/mL oral solution that differs in dosage form from the reference listed new animal drug (RLNAD). The RLNAD is Cerenia® (maropitant citrate) scored compressed tablets, sponsored by Zoetis Inc, under NADA 141-262. Cerenia® is approved for the prevention of acute vomiting and the prevention of vomiting due to motion sickness in dogs.

Your proposed changes from the RLNAD are changes that can be considered through a suitability petition, as defined under section 512(n)(3) of the Federal Food, Drug, and Cosmetic Act (the FD&C Act). We find that the proposed changes do not require you to conduct investigations to show the safety and effectiveness of the generic new animal drug for its proposed intended uses. Therefore, we approve the petition under section 512(n)(3)(C) of the FD&C Act.

Approval of this suitability petition does not guarantee approval of the ANADA for your proposed generic new animal drug. We will make that determination after you have submitted your ANADA for our review.

When you submit your ANADA for your proposed generic new animal drug, you must identify the RLNAD referred to in this suitability petition and include a copy of this letter. We recommend that you request a presubmission conference, according to 21 CFR 514.5, to discuss the requirements and potential pathways for approval of the application.
