Jennie Butler,  
Division of Dockets Management

Having waited about 2.5 months to receive a response to my letter of 24 December 2006 (filed as "RC1" in both dockets 2004P-0349 and 2006P-0535), I am submitting another letter to the initiating parties and dockets asking that the "citizen petition" that the FDA filed in FDA Public Docket 2006P-0535 be withdrawn.

Please appropriately this request letter in both FDA Public Dockets 2004P-0349 and 2006P-0535 as it bears on matters addressed in both dockets, including 2004P-0349/ANS1, the FDA's official answer to 2004P-0340/PSA1 that effectively denied the 2004P-0349/PSA1 document's request for a stay of action.

As always, let me thank you and your staff in advance for your ongoing efforts to appropriately post all submissions to the FDA Public Docket as expeditiously as your limited resources permit.

Respectfully,

Dr. King
