**Dear Lawrence and Madhusoodana:**

**Mr. Nambiar:**

**FYI: Please add this article to PPSI's Citizens Petition For FDA Guidelines for Cell Phones, with the California Alliance for Retired Americans (CARA) letter, requesting federal government sets radiation exposure guidelines for cell phones, along with the Judge Edward Chen's decision to be sent in the next email.**

"Judge blocks Berkeley's warning about cell phones and children" Sf Chronicle, 9-22-15

Lawrence: Can you give me some quotes ? Here is link to my last article on cell phones ?  
What's next ? Can we claim this as a victory, writing an article for Marin Scope newspapers, circ. 75,000.  
[http://www.marinscope.com/news\\_pointer/opinion/columnists/practicing-the-precautionary-principles/article\\_0801710c-04ac-11e5-a98a-47df16c249bd.html](http://www.marinscope.com/news_pointer/opinion/columnists/practicing-the-precautionary-principles/article_0801710c-04ac-11e5-a98a-47df16c249bd.html)

**The article states Berkeley relied on FCC's research and guidelines for the rest of its ordinance. " It requires sellers to tell customers that the Federal Government sets radiation exposure guidelines for cell phones"**

Please also add this article, written by Carol Pogash,  
:"Cell phone Ordinance Puts Berkeley at Forefront of Radiation Debate" NYT 7-21-15

Also, here is a copy our PPSI FDA Citizens Petition, which includes PPSI's request for the 846 documents that are included in the FCC's public hearings THAT HAS NEVER BEEN RELEASED and the FDA's public hearings for patients and consumers public health safety, which also has not been released, wit the exception of warnings on defibrillators and pacemakers.

**Lawrence: Please advise and feel free to use any of PPSI's nonprofit information and materials, including the FDA and FCC petition requests for radiation exposure guidelines for cell phones.**

Best,

Fred
