

Biologics Prescribers Collaborative
FDA Meeting Agenda
Tuesday, December 9, 2014
3:00-4:00pm

“Challenges Facing Physicians Whose Practices Involve Biologics”

The Biologics Prescribers Collaborative is an advocate for the needs of physicians whose practices involve a large number of patients prescribed biologic drugs. Our members come from a number of specialties—dermatology, rheumatology, gastroenterology, and others—where biologics have transformed the practice of medicine.

Agenda:

- Introduction
- Challenges for biologics prescribers
- FDA Issues On Which Biological Providers Have Unique Perspective:
- Discussion

Attendees:

- David Charles, M.D., Chairman, Alliance for Patient Access
- Gavin Clingham, J.D., Director for Public Policy, Alliance for Patient Access
- Dennis R. Cryer, M.D., FAHA, Chief Medical Officer, CryerHealth, LLC
- Amanda Grimm, Manager of Regulatory and Public Policy, American Academy of Dermatology Association
- Steven Grossman, J.D., HPS Group, LLC
- Joshua Keepes, Director of Regulatory Affairs, American Gastroenterological Association
- Gregory Schimizzi, M.D., Former President, Coalition of State Rheumatology Organizations
