Re: Citizen Petition – Docket Number FDA-2013-P-1374/CP1

Dear Mr. Mayer:

This is an interim response to your citizen petition dated October 4, 2013, which was filed by the Food and Drug Administration (FDA) on November 20, 2013. In your petition, you request that the FDA Commissioner hold public hearings and open up a federal registry to establish standards on cellphone radiation adverse health effects that might be caused by specific absorption rates and radio frequency radiation /electromagnetic frequency.

This letter is also in response to your email dated February 24, 2014. In your e-mail, you request the name and telephone number of someone to contact at FDA with regard to your citizen petition. That information is provided below.

FDA has been unable to reach a decision on your citizen petition because it raises issues requiring further review and analysis by agency officials. This interim response is provided in accordance with FDA regulations on citizen petitions (21 CFR 10.30(e)(2)). We will respond to your petition as soon as we have reached a decision on your request.

If you have any questions about this response, please contact Loretta Chi of our Regulations Staff at (301)796-5847.

Sincerely yours,

A handwritten signature in black ink, appearing to read "Nancy Stade", is written over a horizontal line.

Nancy K. Stade, J.D.
