Dear Dr. Kevala,

As we discussed yesterday, I would like to re-submit Cargill's health claim petition for Barley Betafiber (originally submitted on January 27, 2006). I no longer wish to delay the filing of the petition since I have word from the editor of the British Journal of Nutrition that the public availability of the study results will not hinder publication of our clinical study.

Please let me know if you need any additional information from me in order to re-initiate the petition review process. I understand that the filing date should be imminent.

I appreciate your help and advice on this matter.

Thank you and best regards,
Lore
