Subj: Major Legal Victory for Berkeley's Cell phone "Right to Know" Ordinance

## **Major Legal Victory for Berkeley's Cellphone "Right to Know" Ordinance**

Electromagnetic Radiation Safety, April 21, 2017

Today the city of Berkeley won a major decision in a federal appeals court. The court denied a request by the CTIA-The Wireless Association to block Berkeley's landmark cell phone "right to know" ordinance.

Berkeley's ordinance which has been in effect since March 21 of last year requires cellphone retailers in the city to provide consumers with the following notification:

"To assure safety, the Federal Government requires that cell phones meet radiofrequency (RF) exposure guidelines. If you carry or use your phone in a pants or shirt pocket or tucked into a bra when the phone is

ON and connected to a wireless network, you may exceed the federal guidelines for exposure to RF radiation. Refer to the instructions in your phone or user manual for information about how to use your phone safely.”

More information about the law and the lawsuit including the court's ruling is available at:
