HI FDA Staff and HHS OIG Staff,

I previously had noted to some folks at the FDA that I would submit a petition on revoking all Covid 19 vaccines. Just in a few days since submitting that petition I want to note that the U.S Senate hearings on the pandemic response only has about a 20% overlap with my petition. Also other key links below including summaries since petition submittal with of U.S Senate hearings summaries.

Title of My Scientifically Based Petition:

Requests that the FDA Disallow all Vaccine Mandates for All Vaccines;
Revoke Authorization for All Covid 19 Vaccines; and Disallow Authorization

The use of Covid 19 vaccines is a crime against science and humanity.

I am increasing my estimate of the harm to benefit ratio of the Covid 19 vaccines outlined in my Covid 19 and vaccine mandate petition to 60 times more harm then benefit from the vaccine usage. This is based on my original section on the human years of life benefited and harmed in my petition.

The details that came out of the U.S. Senate hearings on the Covid 19 pandemic and newer information out on immune imprinting related to Covid 19 vaccines and the added deaths involved in using the vaccines. Summaries of the senate hearings are at and links related to immune imprinting follow. I will attach a copy of the Wall Street Journal article.
