Subject: August 7 NYC radio show/Jess Shatkin,MD/ scientists attack NYT article 7-22

Jess/Mel:

Wow Wow Wow

Cell Phones-the Right to Know-Berkeley Legislation, this week's NYT controversy and 1200 word article by Carol Pogash, makes this issue for Friday, August 7, 9-9:30, **HOT HOT HOT**.

We have 3 outstanding speakers for your NYC talk show..... Is there any chance that you might be able to give us an hour ? As the Berkeley legislation, the CTIA lawsuit on the right to know, the new CMA resolution on this issue, the FCC and the FDA harm issue makes this really exciting.

At any rate, please let me know where to call in on the 7th or shall I give you the 3 people and phone numbers to hook up and is the time still 6 AM Western time for the 9 AM show ?

Best and thanks for our half hour time. Please advise.

It might be interesting to have a follow up when you return from vacation, with the FDA person, in charge of public safety and hearings, for our consumer groups, **ON WHY FDA AND FCC HAVE FAILED TO IMPLEMENT THE RIGHT TO KNOW INFO. THAT WE CONSUMERS NEED FOR PUBLIC HEALTH SAFETY AND HARM..... I HAVE A DEFIBRILLATOR WITH QUADRUPLE BYPASS AND NO ONE BOTHERED TO TELL ME FOR THE LAST 3 1/2 YEARS I HAVE HAD THE DEFIBRILLATOR NOT TO CARRY MY CELL PHONE IN MY SHIRT POCKET, NEXT TO MY DEFIBRILLATOR. THE FDA SAYS IT SHOULD BE 15 CENTIMETERS AROUND 2 1/2 INCHES AWAY FROM YOUR BODY..... WHO KNEW ??**

July 24, 2015

I posted on my web site, Electromagnetic Radiation Safety, a letter Drs. Lennart Hardell and Michael Carlberg sent to the New York Times. Drs. Hardell and Carlberg arguably are the leading epidemiologists in the world who study brain tumor risk from wireless phone use.
