Re: Address Petition to Revoke Splenda Approval Now.
Filed 04.07.06 / Docket No. 2006P-1058

To Whom It May Concern:

Please respond to the Petition filed by Citizens for Health on April 7, 2006. As required by law, a response from your office was due in October of 2006. An explanation as to the incredible delay has not been forthcoming, and time is of the essence in reviewing this Petition.

Innocent consumers rely on the FDA's actions and endorsements. The severe consequences of ignoring this Petition are irreparable and demand immediate attention.

In light of Duke University Medical Center's research report published last year that Splenda can be harmful to the body, coupled with mounting consumer grievances about skin rashes, headaches, and severe gastrointestinal problems, I am requesting your office fulfill its duty and review the Petition immediately.

Thank you.
