Re: Docket FDA-2019-P-4669

Dear Dr. Hutt:

This letter is in response to your citizen petition (FDA-2019-P-4669) received on September 6, 2019, in which you requested that the Food and Drug Administration amend 21 CFR 101.9 Nutrition Labeling of Food to include a highly purified form of glucomannan with not less than 95% purity by HPLC, including that sold under the trade names Propol and Propolmannan, as a dietary fiber in the Nutrition Facts label on foods, beverages, and dietary supplements.

In accordance with Title 21 of the *Code of Federal Regulations*, section 21 CFR 10.30(e)(2), this letter is to advise you that we have not been able to reach a decision on your petition within the first 180 days of its receipt because of other agency priorities and the limited availability of resources. When we complete our review of your petition, we will notify you of our decision.

Please let us know if you have any questions.

Sincerely,

Claudine Kavanaugh, PhD, MPH, RD
